1. Claims 26-29 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 26, line 5, the phrase "the moving **first** belt" has no antecedent basis.

In claim 26, line 7, the phrase "the first fiber section wire" has no antecedent basis.

In claim 26, line 9, the phrase "the **first** belt" has no antecedent basis.

The "combining" step of claim 26 appears to be grammatically incorrect.

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

3. Claims 26,27 and 29 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Steckenreuter et al. (5,788,816).

4. Claims 26-29 are rejected under 35 U.S.C. 102(b) as being clearly anticipated by Shimazu et al. (5,556,513). See e.g. Figure 9.
